# PRODUCT CONTROL NEWS

## The Miami-Dade Product Control Division proudly announces the introduction of a new “Expedited Review Process” for Windows

Dear Manufacturer:

As part of our continued commitment to improve the way we serve our clients, the Miami-Dade County Product Control Division, is offering an “Expedited Review Process” for windows. Under this new service, window manufacturers can take advantage of this optional service by just completing the attached yellow application. Through the submittal of this yellow application, the manufacturer agrees to pay all costs incurred by our Office in the process. These costs are in addition to those stated in the current fee schedule and include fees paid to consultants.

Manufacturers, who currently have an application submitted to our Office or those manufacturers that download the application through the Internet, (unless they print the application on yellow paper) may also take advantage of this new option by simply writing us a letter requesting the “Expedited Review Process” and agreeing to cover any additional cost.

The “Expedited Review Process” requests will be handled in order of submittal. Under this “Expedited Review Process”, a substantial reduction in the review turn around time is anticipated; 30 days or less is expected.

This program will be extended to other products in the near future.

Thank you for your continued support.
